

AGENDA

FUTURE OF ELECTRONIC WASTE MANAGEMENT IN CALIFORNIA STAKEHOLDER WORKSHOP Part 3

Tuesday, June 20, 2017; 1:30 – 4:30 p.m.

Second Floor, Sierra Hearing Room Cal/EPA

Headquarters 1001 I Street, Sacramento

The purpose of the Future of Electronic Waste Management in California project is to engage stakeholders in discussing current conditions and future options for electronic waste management in California. This is the third in a series of stakeholder workshops. The first workshop, held September 14, 2016, featured a panel of stakeholders representing a range of California perspectives followed by small group discussions to explore potential models and identify elements that are vital to the success of any program approach. The second workshop on March 15, 2017, explored what various potential models could look like using a particular product category as an example. Materials from both workshops can be found on the [Future of Electronic Waste Management in California](#) webpage.

Today's workshop invites stakeholders to participate in a focused discussion on one particular aspect of the project: developing criteria by which various product categories could be evaluated for potential inclusion in the definition of a covered electronic device (CED). California's existing electronic waste management program has been highly successful in collecting and properly handling over two billion pounds of covered electronic wastes (CEW). However, The Electronic Waste Recycling Act of 2003 narrowly defines covered electronic devices (CED) as certain video display devices (Public Resources Code 42463(e)(1)). Stakeholders have frequently expressed interest in adding new devices to this definition. Such an expansion in covered devices would require legislation.

Today's workshop is designed to foster interaction between stakeholders. [Background documents](#) have been posted on the CalRecycle Public Notice website. Small group discussions will help solicit input so please read the documents in advance. Also note that CalRecycle is separately considering whether and how to make other changes to the existing CEW program that do not require legislation, including whether and how to provide multiple payment rates for existing covered devices as well as continuing to address various documentation issues.

TIME	TOPIC	ACTION
1:30 – 1:45	Opening Remarks	<ul style="list-style-type: none">• Welcome• Project status
1:45 – 2:45	Product Criteria	<ul style="list-style-type: none">• Staff Presentation• Open Discussion• Potential criteria for considering new product categories
2:45 – 3:00	Break	<ul style="list-style-type: none">• 15 Minute Break
3:00 – 3:45	Product Categories and Definitions	<ul style="list-style-type: none">• Staff Presentation• Open Discussion• What constitutes a “product category”?• Challenge of clearly defining products
3:45 – 4:20	Reuse and Repair Issues	<ul style="list-style-type: none">• Open Discussion• Encouraging reuse, reparability, ease of dismantling
4:20 – 4:30	Wrap Up	<ul style="list-style-type: none">• Wrap-up and next steps

General Information:

- Please note: We will not be broadcasting video of this event. However, for those unable to attend in person, you may participate via conference call:
 - Call Number: 888-989-9746
 - Participant Code: 6753087

**It is very important that you mute your phone by pressing *6 during the workshop.
You may unmute your phone to ask a question or make a comment by pressing *6 again.**

- Comments and questions before, during and after the workshop can be addressed to EWaste@CalRecycle.ca.gov
